Acute unsolicited adverse events following BNT162b2 vaccine in Saudi Arabia, a real-world data

Bashayer AlZayed

Intensivist
Riyadh, Saudi Arabia

Summary

Intensivist, developed my skills in critical care medicine during the challenging times of the COVID-19 pandemic. Worked as Chief Resident for two years demonstrating a balance between admin and clinical work, in addition to developing an effective communication skills.

I excel in patient care mainly, and demonstrate strong leadership. I am familiar in ultrasound, using it for precise diagnosis and monitoring. I also have expertise in managing ECMO for severe respiratory or cardiac failure, optimizing patient care and outcomes.
